PROFILE SUMMARY

MERN Stack Developer with hands-on professional experience building and maintaining responsive, real-world web applications using React.js, Node.js, Express.js, and MySQL. Currently working as a Junior Web Developer at Sai Techno Solutions, delivering client websites including educational consultancy platforms and e-commerce applications end to end, from database design to REST API integration and responsive UI development. Strong understanding of full-stack development, component-based UI, and backend integration, with a continued interest in learning new technologies.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, jQuery, Bootstrap

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Other: REST APIs, Git/GitHub, Responsive Web Design

WORK EXPERIENCE

Junior Web Developer | Sai Techno Solutions

03/2026 - Present

Coimbatore

- Developed and maintained client websites using React.js on the frontend and Node.js/Express.js on the backend, following component-based architecture for reusable, maintainable UI.
- Designed relational database schemas and managed data using MySQL, including tables for products, orders, users, and enquiries across multiple client projects.
- Built and integrated RESTful APIs to connect frontend interfaces with backend services, handling CRUD operations, authentication flows, and form submissions.
- Collaborated directly with clients and the internal team to gather requirements, translate business needs into functional features, and iterate based on feedback.
- Implemented responsive, mobile-first UI layouts and cross-browser tested pages to ensure a consistent experience across devices.
- Used Git/GitHub for version control, including feature branching and code collaboration within the team.
- Debugged and optimized existing client websites to improve load performance and fix functional issues raised during testing and client review.
- Delivered end-to-end projects including an overseas education consultancy website and multiple e-commerce platforms, from database design through deployment-ready builds.

PROFESSIONAL PROJECTS (SAI TECHNO SOLUTIONS)

Aura Global Education - Overseas Education Consultancy Website

Tech: React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript | <https://auraglobaledu.com/>

- Built a consultancy platform guiding students through the complete study-abroad journey: country and university selection, application, scholarship, visa, IELTS, accommodation, and travel.
- Implemented free counselling booking, scholarship and visa assistance sections, IELTS coaching info, and educational loan and accommodation assistance modules.
- Developed student enquiry/application forms and pre-departure & post-arrival support content using React components with a Node.js/Express/MySQL backend.

Sarvesh Enterprises - E-Commerce Website

Tech: React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript | <https://thelabplanner.in/>

- Developed a full-featured e-commerce platform with product catalog, cart, checkout, and secure payment integration.
- Built an admin dashboard for managing products, orders, and shipping details.
- Implemented shipping workflow and order management integrated with a MySQL backend via REST APIs.

Nikitha Enterprises - E-Commerce Website

Tech: React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript | <https://anyrastrove.com/>

- Currently developing an e-commerce platform with product catalog, cart, checkout, payment integration, and shipping management.
- Building an admin dashboard for order and inventory management using a React frontend and Node.js/Express/MySQL backend.

Baani Jewels - E-Commerce Website

Tech: React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript | <https://baanijewels.com/>

- Developed a responsive jewellery e-commerce platform with dynamic product, category, variant, cart, wishlist, and checkout modules.
- Implemented complete payment gateway, order management, shipping, and customer tracking flow with secure transaction handling.
- Developed Admin Panel, coupons, offers, banners, reviews, and product management with testing, debugging, and deployment support.

SRP Facilities Services - Cleaning Services Website (Static)

Tech: HTML, CSS, JavaScript | <https://srpfacilityesservices.com/>

- Developed a responsive static business website for a facilities management company offering home, office, and industrial cleaning services.
- Structured dedicated service sections with clear service descriptions and contact details to help customers easily find and enquire about the right cleaning service.
- Implemented a mobile-first layout, cross-browser tested pages, and prepared the site for deployment.

EDUCATION

Christian College of Engineering and Technology

08/2022 - 04/2026

Bachelor of Computer Science Engineering | Final Grade: 83%

CERTIFICATES

- MERN Stack Development - Course Completion Certificate, SDLC Institution, Karur

LANGUAGES

Tamil, English
